

GRIDIRON 24 | FANTASY HQ

INSTALL THE APP

Add HQ to your iPhone or Android home screen

UPDATED AUGUST 2026 | www.gridiron24.com

Gridiron 24 is a Progressive Web App (PWA). You install it from your phone's browser — no App Store or Google Play download.

Once installed, it opens like a normal app: standings, your matchup, roster, and league updates.

BEFORE YOU START

- Have your Gridiron 24 login ready (or create an account from an invite).
- Use the steps for your phone below. iPhone must use Safari. Android works best in Chrome.

APPLE

IPHONE & IPAD (SAFARI)

1. Open Safari (not Chrome or other browsers).
2. Go to <https://www.gridiron24.com/enter> and sign in.
3. After you land in the app, tap the Share button (square with an arrow pointing up).
4. Scroll the share sheet and tap Add to Home Screen.
5. Confirm the name (Gridiron 24 / GI24), then tap Add.
6. Open the new Gridiron 24 icon on your Home Screen anytime.

GOOGLE

ANDROID (CHROME)

1. Open Chrome.
2. Go to <https://www.gridiron24.com/enter> and sign in.
3. Look for an Install app / Add to Home screen banner, or tap the menu (☰).
4. Tap Install app or Add to Home screen, then confirm Install / Add.
5. Open Gridiron 24 from your Home Screen or app drawer.

AFTER YOU INSTALL

- Sign in once inside the app if prompted.
- Use the bottom tabs for Home, Matchup, Roster, League, and Book.
- Notifications and updates depend on your phone settings; keep the app updated by opening it while online.
- To remove: long-press the icon → Remove / Uninstall (same as other apps).
